B_Free Fusion 4

Made to measure solutions 6 - 10

Further information 11

Barazza's striking made to measure worktops are manufactured using high grade 304 stainless steel and can be produced up to four metres in one length dependent on pre-approved project design. All of the worktops are mounted on a waterproof panel for increased resistance, stability and handling and are available in thicknesses from 12mm to 120mm. Variations in length and thickness are available on request.

The work surfaces are developed and produced in the Barazza factory where experienced designers and skilled artisans, with over 40 years experience, come together to create equipped worktops that have become synonymous with innovation, quality and design.

Barazza's unique ability to seamlessly incorporate their hobs, sinks and accessories into the stainless steel projects gives the designer the ultimate freedom to create a functional piece which boasts clean lines and an unrivalled minimalist elegance. The lack of joins between the appliance and surface ensures a clean visual line and a more ergonomic and hygienic finish.

These worktops will last and last; the brushed Scotch-Brite finish means that scratches will blend in and become less visible over time.

All designs are subject to prior approval by Fratelli Barazza and price is on application.

B_FREE FUSION

B_Free Fusion is the latest in bespoke product development from Barazza. This made to measure product allows a unique choice of combinations of B_Free hobs to satisfy any cooking requirement.

The selection is seamlessly integrated to make a continuous cooking surface, perfect for the ultimate freedom of choice. Manufactured in Barazza's high grade 304 stainless steel, B_Free Fusion can be up to two metres in length. Each project is considered on an individual basis and designs must be approved by Fratelli Barazza.

Barazza will consider the incorporation of a selection of sinks dependent on design.

MADE TO MEASURE SOLUTIONS

Controls can be mounted on the front of the worktops with selected products.

Barazza appliances are seamlessly welded into the worktop.

12mm - 120mm

Worktops can be produced at a thickness between 12mm and 120mm.

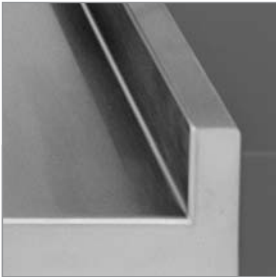

Worktops are mounted onto a waterproof panel for increased resistance, stability and handling.

MADE TO MEASURE

Hob from Barazza's Lab collection seamlessly welded giving a flush, ergonomic finish.

Flawlessly welded upstands.

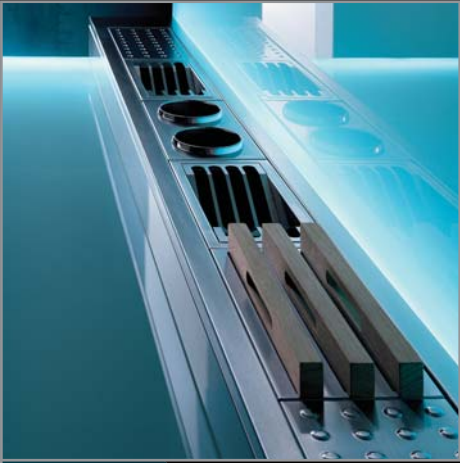

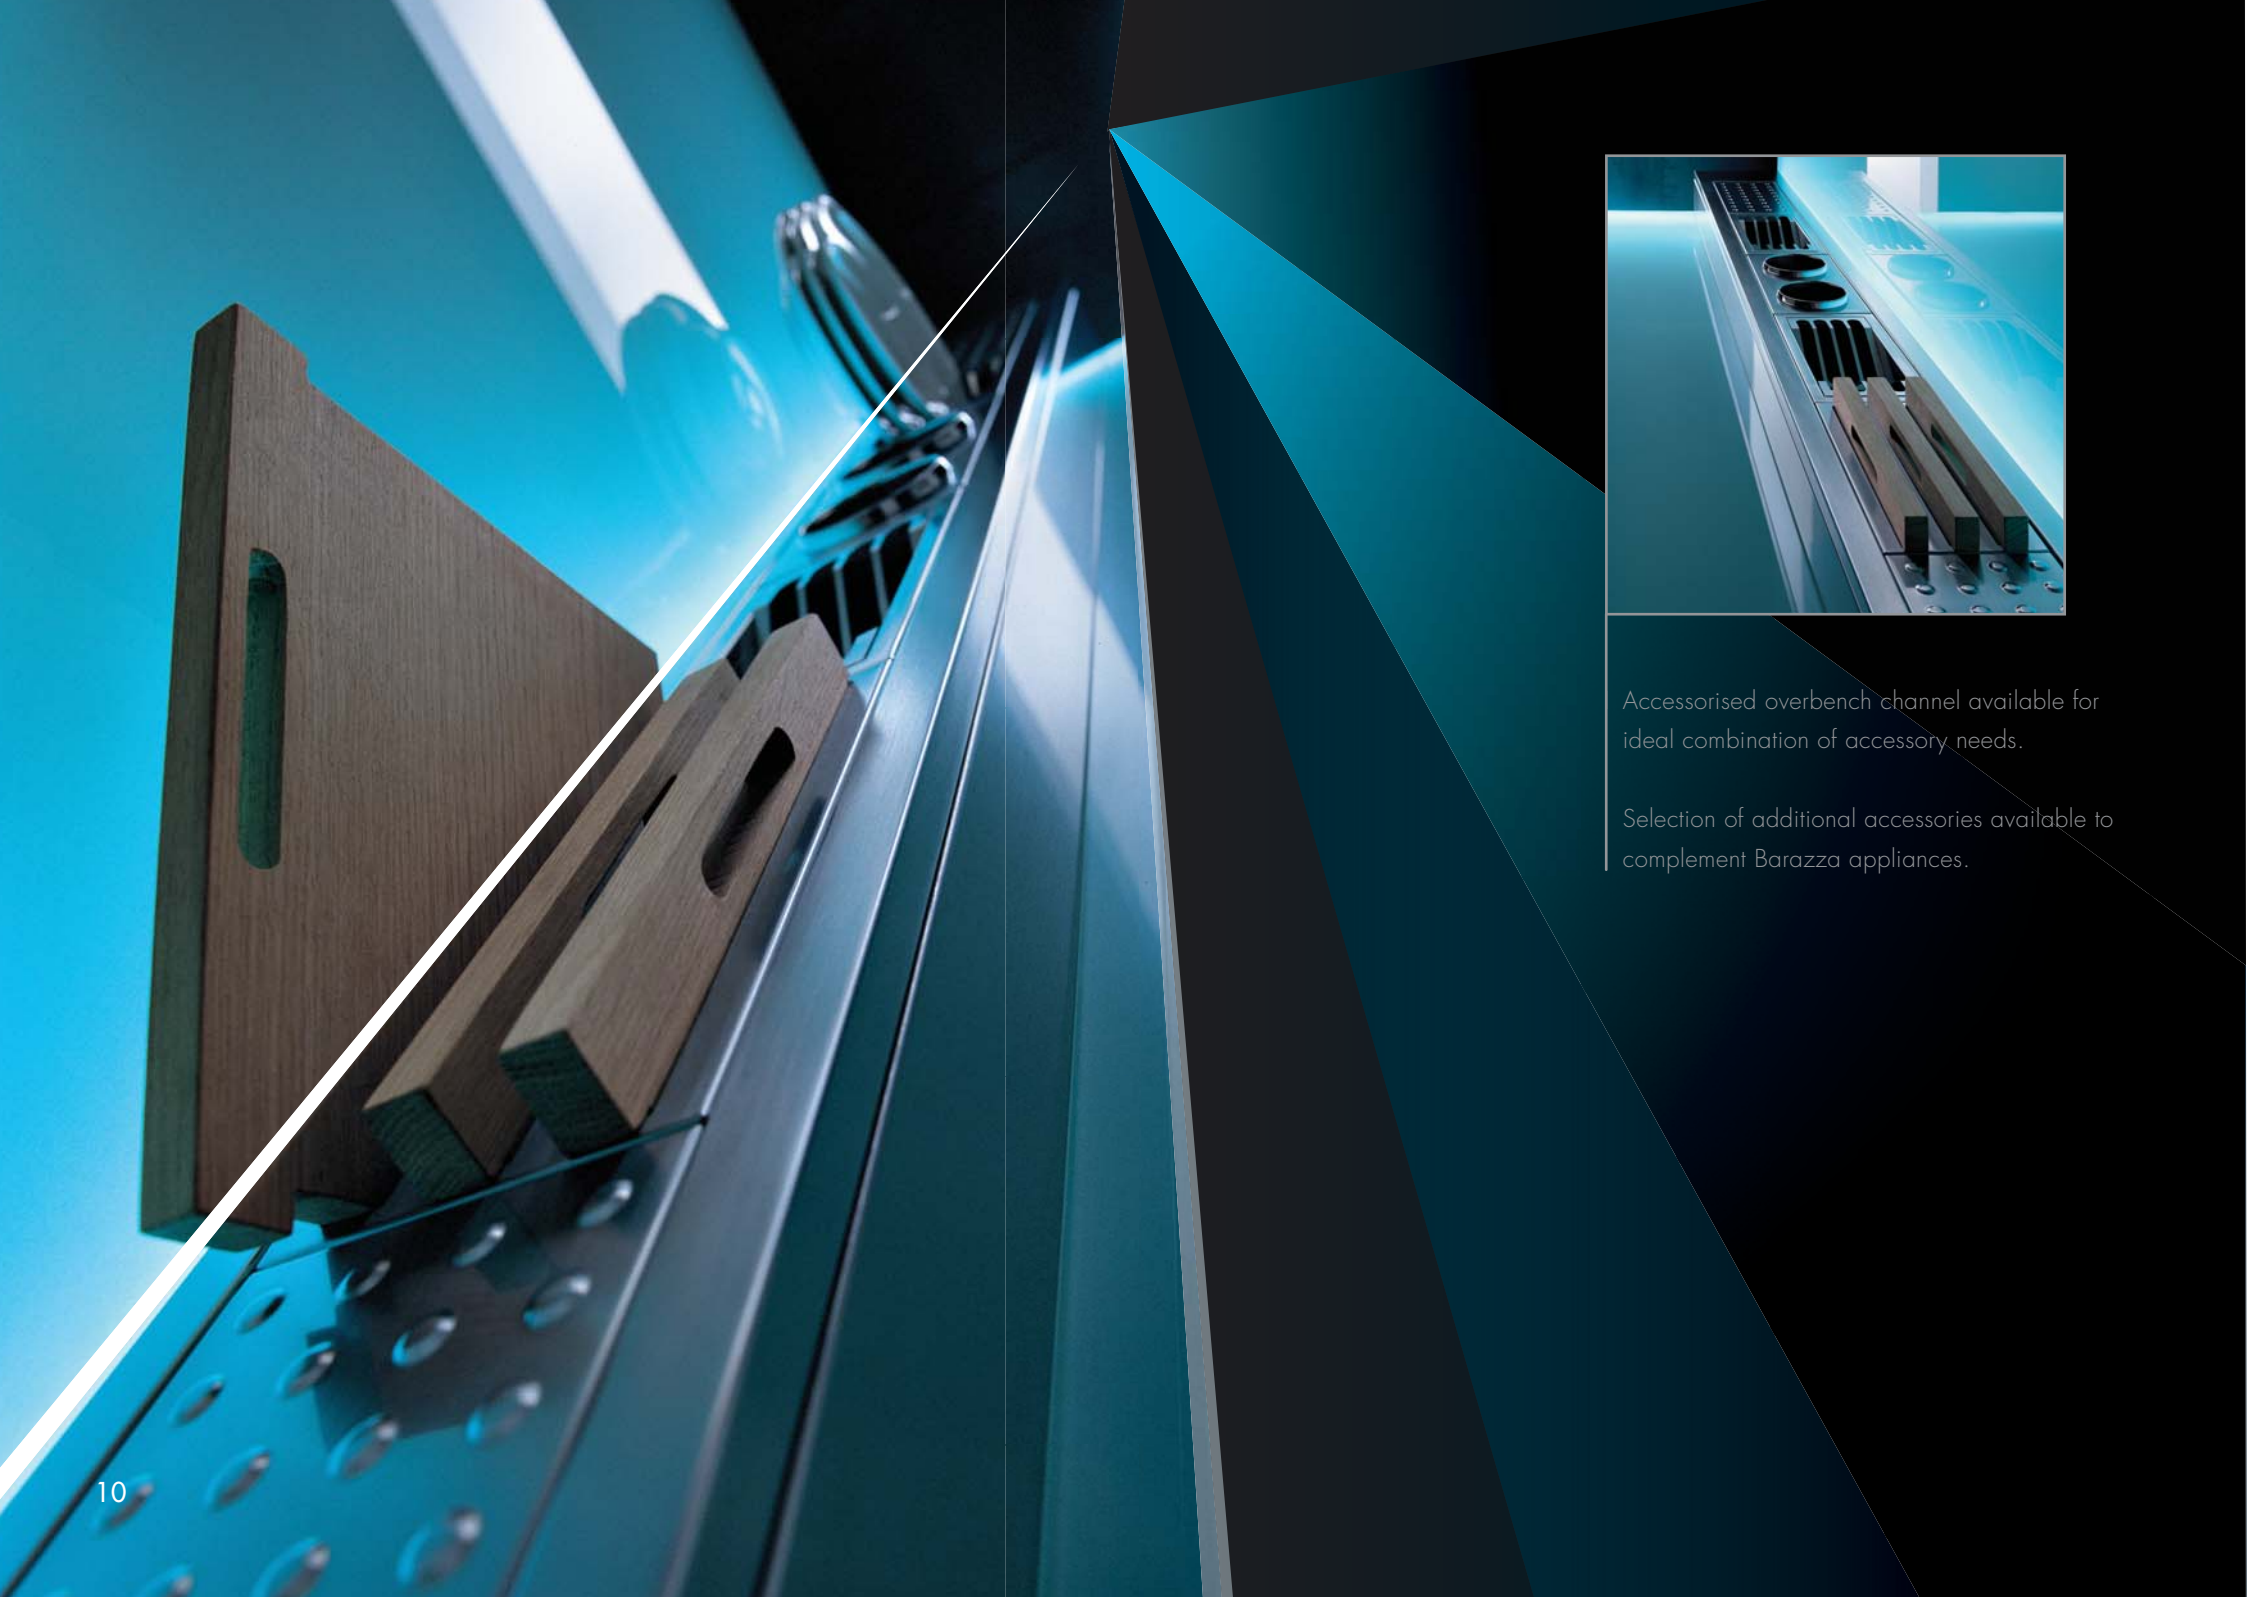

Lowered draining area with sliding cover.

Choice of joints between work surfaces dependent on project design.

Accessorised overbench channel available for ideal combination of accessory needs.

Selection of additional accessories available to complement Barazza appliances.

FURTHER INFORMATION

Barazza made to measure stainless steel projects are available exclusively in the UK through Euroline Sales & Marketing. Euroline Sales & Marketing are strictly a business to business organisation. Consumers, please contact your nearest specialist retailer for supply.

Designers, please allow tolerances +1 -1.

Designs are subject to approval from Fratelli Barazza; every effort will be made to keep designs as specified, deviations on original designs will be for technical improvement only.

QUOTATIONS

Quotations upon request. Detailed project drawings and requirements are mandatory for initial quotation to be made. Quotation requests must be made in writing. Please allow three days for quotations; additional time may be required if further technical investigation of any design is required.

Quotations will be valid for 90 days from date of issue.

ORDERS

Orders required in writing following receipt of official quotation. Please note, any changes in projects at this stage will result in a new quotation being issued and the initial process beginning again.

A 50% deposit is required on placement of order.

Barazza will issue a technical drawing for approval upon order; please allow up to five days for this process. Approved drawings must then be returned within two days. After this sign-off process, modifications can be considered if feasible; an amended price will be quoted in these circumstances. Please note, any changes may delay delivery times.

Please allow six to eight weeks for delivery. Any delays in delivery will be promptly communicated and will not be accepted as a reason for delayed payment or cancellation of order. All projects are bespoke and manufactured to the requirements stipulated by the client; therefore lead time will be dependent upon individual specifications.

Euroline Sales & Marketing offer a digitised templating service at additional cost allowing easier and faster transfer of information.

DELIVERIES

Barazza made to measure stainless steel projects are delivered crated to site with two person delivery included (assuming good access). Any additional persons or equipment required will be chargeable.

Site contact will be responsible for examining steelwork at point of delivery and confirming goods are received in acceptable condition. No responsibility will be taken for damage reported after this time.

CLEANING

After use, we suggest the use of a neutral detergent with non-abrasive cloth or chamois leather.

For general upkeep, the periodical use of Barazza's Easy Clean cream cleaner is recommended. As an alternative, a small amount of lukewarm white vinegar can be applied and then rinsed and dried with a non-abrasive cloth.

Do not use abrasive materials, muriatic acid, bleach or detergents containing chlorine or any of its derivatives.

WARRANTY (APPLIANCES)

Barazza appliances are covered by a two year parts and labour guarantee.

Taps are supplied with a one-year return to importer guarantee.

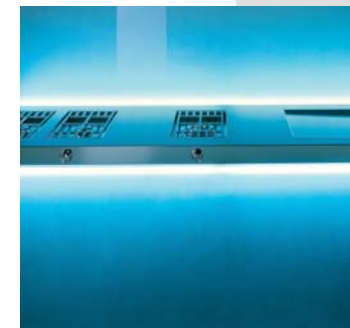

GENERAL

Projects will be produced with the inclusion of Barazza branding unless explicitly specified by written request. Please note Barazza appliances and sinks will remain branded.

Due to the natural qualities of stainless steel, there is the possibility of minor aesthetic variations.
